General and Foundational Questions

Interview Questions

Overview

The interview questions in this guide are only for use in mock interviews. The following questions should be used as a study guide, with example questions.

General interview questions

1. Tell me about a period when you had to meet a deadline. How did you progress? What was the result?
2. How has your prior training prepared you for this job?
3. Give me an example of a period at a previous job when you took the initiative to improve or streamline a task. Why was a change required? What was the outcome?
4. Tell me about a time when you had to meet a deadline that didn't give you enough time to work on the project. How did you proceed? What was the outcome?
5. Tell me about a supervisor from a previous job. What was his or her management approach? How about the most difficult supervisor you have had? Why did you think it was difficult to work with him or her?

Possible follow up question:

What did you do to make sure that you could work with this manager?

What did you learn about your experiences?

Or

Tell me about the best supervisor you have had. What made this supervisor stand out?

General cloud interview questions

6. What is cloud computing?

Cloud computing can be defined as the on-demand delivery of compute power, database, storage, applications, and other IT resources via the internet with pay-as-you-go pricing.

7. What is the difference between black-box testing and white-box testing?
